**Recommended For:**
- All rFOIL™ insulation products and related applications
- Maintaining a vapor barrier and constant insulator

**Seals:**
- Seams
- Gaps
- Tab sections
- Rips
- Tears

**Benefits:**
- Economical
- Quick and easy to install
- Approved vapor barrier
- Available in a variety of sizes to suit your needs

rFOIL™ Adhesive Tapes are available in three varieties: Aluminum, White Poly and Metalized Foil.

All rFOIL™ tapes provide an excellent vapour barrier seal and are specifically designed for use with all rFOIL™ Insulation Products.

Acrylic pressure sensitive adhesive combines superior quick-stick at normal temperatures, with excellent low temperature performance below freezing.

# Adhesive Tapes
(15000 Series)

## FEATURES

Metalized Foil & Aluminium Tapes
- Soft, Metalized Foil / Aluminium Foil
- Pressure Sensitive Acrylic Adhesive

### BENEFITS
- Conforms to irregular surfaces
- Maintains reflective / radiant barrier
- Adheres well to rFOIL™, sheet metal, and more!
- Effective in hot and cold climates
- Forms strong bond for long life adhesion

White Poly Tape
- Polypropylene Material
- Acrylic Adhesive

### BENEFITS
- Durable to withstand installation
- Adheres to any polyethylene or related material
- Conforms to foil or poly to give the seamless look
- Will adhere to poly or aluminium faced rFOIL™
- Adheres in all four seasons
- Will seal seams effectively for many years
